Keesing ID AuthentiScan™ APP

Authenticate ID documents using an APP on your smartphone

KEESING
AuthentiScan™

Automated authentication of ID documents

Keesing AuthentiScan™ APP

AuthentiScan™ APP allows you to verify ID documents anywhere and anytime, using an app running on your smartphone. The app allows you to check the machine readable zone (MRZ) and provides a quick and easy means of authenticating ID documents. Simply photograph the document and the app will establish whether it's genuine or counterfeit within seconds.

Lightning-quick inspection and Expert Helpdesk

AuthentiScan™ APP is fast and easy to use. Depending on the document type, you can either take a photograph of the personal data page (passport) or of the cover and back (ID card, driving license). The smart app uses these images to check the MRZ automatically.

If all is well, a green tick appears on the screen. If not, the app automatically contacts the Keesing Expert Helpdesk, which will authenticate the document and update/finalise its status. AuthentiScan™ APP automatically forwards details of any ID document without an MRZ to our Helpdesk.

It is also possible to verify whether a person is entitled to work in a country with the Right to Work check in the APP.

Audit trail

The outcome of each inspection is automatically saved. This includes photos. The data is only stored locally (on the smartphone). AuthentiScan™ APP also creates an audit trail, which you can easily send to other recipients from your smartphone.

AuthentiScan™ APP

- Mobile solution for Android smartphones
- Authenticate ID documents with an app
- Automated MRZ check
- Right to Work check (optional)
- Works without passport reader or scanner (works with phone camera)
- Data retrieved from ID document is stored locally
- Detailed report per inspected ID document (audit trail)
- Direct link to Keesing Expert Helpdesk

Keesing AuthentiScan™ users

AuthentiScan™ is primarily used in/for:

– Client Acceptance processes (KYC)

– Anti-Money Laundering (AML) procedures

– The screening of staff, customers, visitors, patients, citizens

– Risk management programmes

– Access Control systems

– Fraud prevention strategies

AuthentiScan™ is used by, among others, government agencies, military and police, banks and other financial institutions, rental companies, insurance companies, telecom providers, solicitors, (online) gaming companies, temporary employment agencies and airlines.

Thousands of organisations around the world rely on our solutions every day.

Keesing Technologies

Keesing Technologies was founded in 1923 and leads the way in digital ID document and banknote authentication solutions.

Our objective is to help organisations prevent counterfeiting and combat fraud by providing the world's best authentication solutions. To this end, we market a range of printed and digital solutions that allow users - from document professionals to untrained staff - to assess the authenticity of nearly all ID documents and banknotes currently in circulation. Solutions that provide you with the assurance of a document's authenticity.

The technology we use is powered by nearly 100 years of experience and accumulated knowledge. Thousands of organisations around the world rely on our solutions every day.

Keesing is the owner of the world's most comprehensive source of genuine ID documents and banknotes. A database which provides you authoritative access to international ID documents and banknotes from over 200 countries and organisations. The database, which powers all our products, includes detailed descriptions and high-quality images of thousands of passports, ID cards, driving licenses, visas, residence permits and banknotes. Keesing is trusted by Interpol as a partner for worldwide reference data on banknotes.

Keesing's objective is to develop the highest quality products and services. To achieve it, we cooperate with international government agencies, as well as embassies, consulates and central banks.

Keesing serves more than 6,000 organisations, including government agencies, security printers, temporary employment agencies, insurance companies, banks, telecom providers, solicitors and airlines. Keesing has offices in The Netherlands, France, and the USA. Keesing collaborates with distributors, strategic partners and agents all over the world.

Keesing Technologies is a SURYS company.
