Keesing AuthentiScan

The solution for easy ID verification and identity proofing
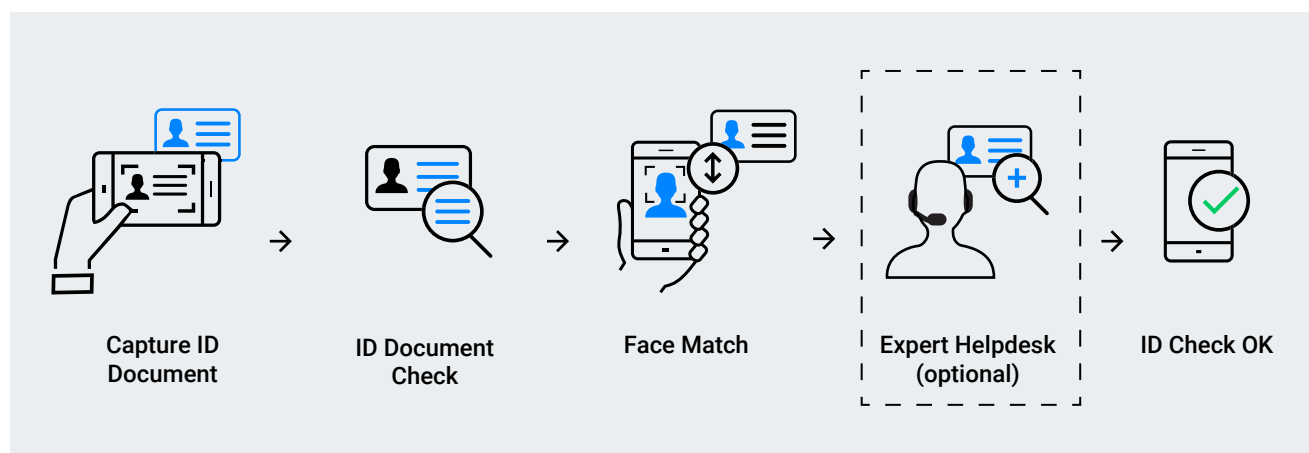

APP version

ID document verification and identity proofing.
Everywhere and anytime, using an APP.

The APP version of Keesing AuthentiScan is easy to use and performs a thorough ID document verification in a matter of seconds by checking the key security features of the document. You know directly if you can trust the document, while on the go.

With the Face Match option you can instantly match the face of a person with the photo on the ID document. This state-of-the-art feature identifies or verifies a person by comparing patterns based on the person's facial contours, providing you with an accurate and quick identification of individuals and protection against fraudulent activity.

Simply photograph the ID document and the APP will guide you through the identification process.

| Capture ID Document | → | ID Document Check | → | Face Match | → | Expert Helpdesk (optional) | → | ID Check OK |

Audit trail

Keesing AuthentiScan automatically creates a detailed report for each ID check. As a result, you simultaneously create a comprehensive audit trail. The APP offers various options for sharing and reporting data.

Verification Scope

Keesing AuthentiScan offers broad-based ID document verification and allows you to verify ID documents from over 200 countries and organisations, including: passports, ID cards, driver's licenses, residence permits and visas.

AUTHENTISCAN.COM

ID document verification and identity proofing.

Everywhere and anytime, using an APP.

Checks supported

MRZ check: Quick and easy means of verification of ID documents by checking the machine readable zone (MRZ).

Pattern Matching: This checks the data positions in the document. Are the specific data components (e.g. name, surname, place of birth) where they should be in the document?

Validity check: Is the document still valid? AuthentiScan automatically checks the expiration date of the ID document.

Face Match: Is the person presenting the ID the real owner? Assess the extent to which a photo on the ID document matches the person's face and identify persons effectively and accurately.

VIZ to MRZ comparison: Besides the actual check on the MRZ code, AuthentiScan also compares the Visual Inspection Zone (VIZ) with the MRZ code.

Keesing Expert Helpdesk Support: In case of doubt, you can always contact the Keesing Expert Helpdesk; staffed by a team of Doc 3 certified professionals.

Keesing Technologies

Keesing Technologies was founded in 1923 and leads the way in digital ID document and banknote authentication solutions.
Our objective is to help organisations prevent counterfeiting and combat fraud by providing the world's best authentication solutions. To this end, we market a range of printed and digital solutions that allow users - from document professionals to untrained staff - to assess the authenticity of nearly all ID documents and banknotes currently in circulation. Solutions that provide you with the assurance of a document's authenticity.

The technology we use is powered by nearly 100 years of experience and accumulated knowledge.
Thousands of organisations around the world rely on our solutions every day.

Keesing is the owner of the world's most comprehensive source of genuine ID documents and banknotes. A database which provides you authoritative access to international ID documents and banknotes from over 200 countries and organisations.
The database, which powers all our products, includes detailed descriptions and high-quality images of thousands of passports, ID cards, driving licenses, visas, residence permits and banknotes. Keesing is trusted by Interpol as a partner for worldwide reference data on banknotes.

Keesing's objective is to develop the highest quality products and services. To achieve it, we cooperate with international government agencies, as well as embassies, consulates and central banks.

Keesing serves more than 6,000 organisations, including government agencies, security printers, temporary employment agencies, insurance companies, banks, telecom providers, solicitors and airlines. Keesing has offices in The Netherlands, France, and the USA. Keesing collaborates with distributors, strategic partners and agents all over the world.

Keesing Technologies is a SURYS company.
