

FOR IMMEDIATE RELEASE

Introducing Keesing Data as a Service for ID Documents: Your One-Stop Solution for Accurate and Reliable ID document Reference Data.

Amsterdam – 15/05/2023 Keesing technologies, a leading provider of identity verification solutions, is proud to announce the launch of Keesing Data as A Service for ID documents, a powerful solution designed to help organizations leverage ID document reference data to improve identity verification within an eKYC process.

Jan Lindeman, the Managing Director, said, *"Keesing Technologies keeps pace with rapid changes in the industry, tracks demand and understands the way data is used today. Globally, many businesses are streamlining complex ID verification processes; building new AI or Machine Learning processes to automate steps in ID verification."*

Keesing Data as a Service for ID Documents provides organizations with access to an extensive database of high-quality ID document images from around the world, including passports, driver's licenses, and other forms of identification. Our data is updated in real-time, ensuring that organizations always have access to the most current and accurate information available.

Richard de Goederen, the Business Development Manager, explained, *"You can trust Keesing content, compiled by our team of Doc 3-certified professionals. Our experts are highly qualified at recognizing fraud. They maintain solid relationships with government agencies and other ID- and banknote-issuing organizations."* He further added, *"Our experts examine, analyze, and scan every document you see in our database. This way, our data is always up-to-date and ready for re-use in your identity verification services."*

The Keesing Data as a Service for ID Documents solution is highly scalable, meaning that it can be tailored to meet the needs of organizations of any size or complexity. Additionally, our team of experts is always on hand to provide support and guidance, ensuring that organizations get the most out of our service.

If you're interested in learning more about Keesing Data as a Service for ID Documents and how it can help your organization, please don't hesitate to get in touch. Our team would be more than happy to provide you with a demonstration and answer any questions you may have.

About Keesing Technologies: Keesing Technologies is a leading provider of identity verification solutions, offering a wide range of solutions for governments, financial institutions, and other organizations around the world. With over 100 years of experience in identity verification, Keesing Technologies is committed to providing innovative solutions that help organizations stay ahead of the curve.
